**10th FPGA Workshop – 2017 Gyeongju, Republic of Korea,
hosted by Doosan**

10th anniversary of the FPGA workshop

... a time for reflection

... a time to consider accomplishments

... a time to look around to learn from others

... and a time to look to the future

11th FPGA workshop plans

Location: Dallas, Texas, USA

Planning Dates: Mid to Late October 2018

Tentative Sponsors: State Nuclear Power Automation System Engineering Company and/or Doosan HFC

Topics Areas: FPGA Applications (Benefits and Challenges), V&V Methods (Opportunities for Standardization), and V&V Tools and Testing Techniques (Opportunities for Optimization), and FPGA Regulatory Updates

FPGA Project Delivery: Better, Faster, and Cheaper
